

§ 121.304

13 CFR Ch. I (1–1–13 Edition)

§ 121.304 What are the size requirements for refinancing an existing SBA loan?

(a) A concern that applies to refinance an existing SBA loan or guarantee will be considered small for the refinancing even though its size has increased since the date of the original financing to exceed its applicable size standard, provided that:

(1) The increase in size is due to natural growth (as distinguished from merger, acquisition or similar management action); and

(2) SBA determines that refinancing is necessary to protect the Government's financial interest.

(b) If a concern's size has increased other than by natural growth, the concern and its affiliates must be small at the time the application for refinancing is accepted for processing by SBA.

§ 121.305 What size eligibility requirements exist for obtaining financial assistance relating to particular procurements?

A concern qualified as small for a particular procurement, including an 8(a) subcontract, is small for financial assistance directly and primarily relating to the performance of the particular procurement.

SIZE ELIGIBILITY REQUIREMENTS FOR GOVERNMENT PROCUREMENT

§ 121.401 What procurement programs are subject to size determinations?

The rules set forth in §§121.401 through 121.413 apply to all Federal procurement programs for which status as a small business is required or advantageous, including the small business set-aside program, SBA's Certificate of Competency program, SBA's 8(a) Business Development program, SBA's HUBZone program, the Women Owned Small Business (WOSB) Federal Contract Program, SBA's Service-Disabled Veteran-Owned Small Business program, the Small Business Subcontracting program, and the Federal Small Disadvantaged Business (SDB) program.

[75 FR 62280, Oct. 7, 2010]

§ 121.402 What size standards are applicable to Federal Government Contracting programs?

(a) A concern must not exceed the size standard for the NAICS code specified in the solicitation. The contracting officer must specify the size standard in effect on the date the solicitation is issued. If SBA amends the size standard and it becomes effective before the date initial offers (including price) are due, the contracting officer may amend the solicitation and use the new size standard.

(b) The procuring agency contracting officer, or authorized representative, designates the proper NAICS code and size standard in a solicitation, selecting the NAICS code which best describes the principal purpose of the product or service being acquired. Primary consideration is given to the industry descriptions in the NAICS United States Manual, the product or service description in the solicitation and any attachments to it, the relative value and importance of the components of the procurement making up the end item being procured, and the function of the goods or services being purchased. A procurement is usually classified according to the component which accounts for the greatest percentage of contract value. Acquisitions for supplies must be classified under the appropriate manufacturing NAICS code, not under a Wholesale Trade or Retail Trade NAICS code. Acquisitions for supplies must be classified under the appropriate manufacturing or supply NAICS code, not under a wholesale trade or retail trade NAICS code. A concern that submits an offer or quote for a contract where the NAICS code assigned to the contract is one for supplies, and furnishes a product it did not itself manufacture or produce, is categorized as a nonmanufacturer and deemed small if it meets the requirements set forth in §121.406(b).

(c) The NAICS code assigned to a procurement and its corresponding size standard is final unless timely appealed to SBA's Office of Hearings and Appeals (OHA), or unless SBA assigns an NAICS code or size standard as provided in paragraph (d) of this section.

(d) An unclear, incomplete or missing NAICS code designation or size standard in the solicitation may be clarified, completed or supplied by SBA in connection with a formal size determination or size appeal.

(e) Any offeror or other interested party adversely affected by an NAICS code designation or size standard designation may appeal the designations to OHA under part 134 of this chapter.

[61 FR 3286, Jan. 31, 1996, as amended at 65 FR 30863, May 15, 2000; 69 FR 29205, May 21, 2004; 75 FR 61604, Oct. 6, 2010; 76 FR 5683, Feb. 2, 2011; 76 FR 8252, Feb. 11, 2011]

§ 121.403 Are SBA size determinations and NAICS code designations binding on parties?

Formal size determinations and NAICS code designations made by authorized SBA officials are binding upon the parties. Opinions otherwise provided by SBA officials to contracting officers or others are advisory in nature, and are not binding or appealable.

[61 FR 3286, Jan. 31, 1996, as amended at 65 FR 30863, May 15, 2000]

§ 121.404 When does SBA determine the size status of a business concern?

(a) SBA determines the size status of a concern, including its affiliates, as of the date the concern submits a written self-certification that it is small to the procuring activity as part of its initial offer (or other formal response to a solicitation) which includes price.

(b) A concern applying to be certified as a Participant in SBA's 8(a) Business Development program (under part 124, subpart A, of this chapter), as a small disadvantaged business (under part 124, subpart B, of this chapter), or as a HUBZone small business (under part 126 of this chapter) must qualify as a small business for its primary industry classification as of the date of its application and the date of certification by SBA.

(c) The size status of an applicant for a Certificate of Competency (COC) relating to an unrestricted procurement is determined as of the date of the concern's application for the COC.

(d) Size status for purposes of compliance with the nonmanufacturer rule set forth in § 121.406(b)(1) and the osten-

sible subcontractor rule set forth in § 121.103(h)(4) is determined as of the date of the final proposal revision for negotiated acquisitions and final bid for sealed bidding.

(e) For subcontracting purposes, a concern must qualify as small as of the date that it certifies that it is small for the subcontract. The applicable size standard is that which is set forth in § 121.410 and which is in effect at the time the concern self-certifies that it is small for the subcontract.

(f) For purposes of two-step sealed bidding under subpart 14.5 of the FAR, 48 CFR, a concern must qualify as small as of the date that it certifies that it is small as part of its step one proposal.

(g) A concern that qualified as a small business at the time it receives a contract is considered a small business throughout the life of that contract. Where a concern grows to be other than small, the procuring agency may exercise options and still count the award as an award to a small business. However, the following exceptions apply:

(1) Within 30 days of an approved contract novation, a contractor must recertify its small business size status to the procuring agency, or inform the procuring agency that it is other than small. If the contractor is other than small, the agency can no longer count the options or orders issued pursuant to the contract, from that point forward, towards its small business goals.

(2) In the case of a merger or acquisition, where contract novation is not required, the contractor must, within 30 days of the transaction becoming final, recertify its small business size status to the procuring agency, or inform the procuring agency that it is other than small. If the contractor is other than small, the agency can no longer count the options or orders issued pursuant to the contract, from that point forward, towards its small business goals. The agency and the contractor must immediately revise all applicable Federal contract databases to reflect the new size status.

(3) For the purposes of contracts with durations of more than five years (including options), including Multiple
